

DESALTO

**Simplicity for
Contemporary Everyday Life**

Desalto is a leading Italian furniture brand renowned for its sleek, minimalist aesthetics and advanced manufacturing expertise. 30 years of production makes Desalto a young but also a time-honoured brand.

Sophistication Meets Technology

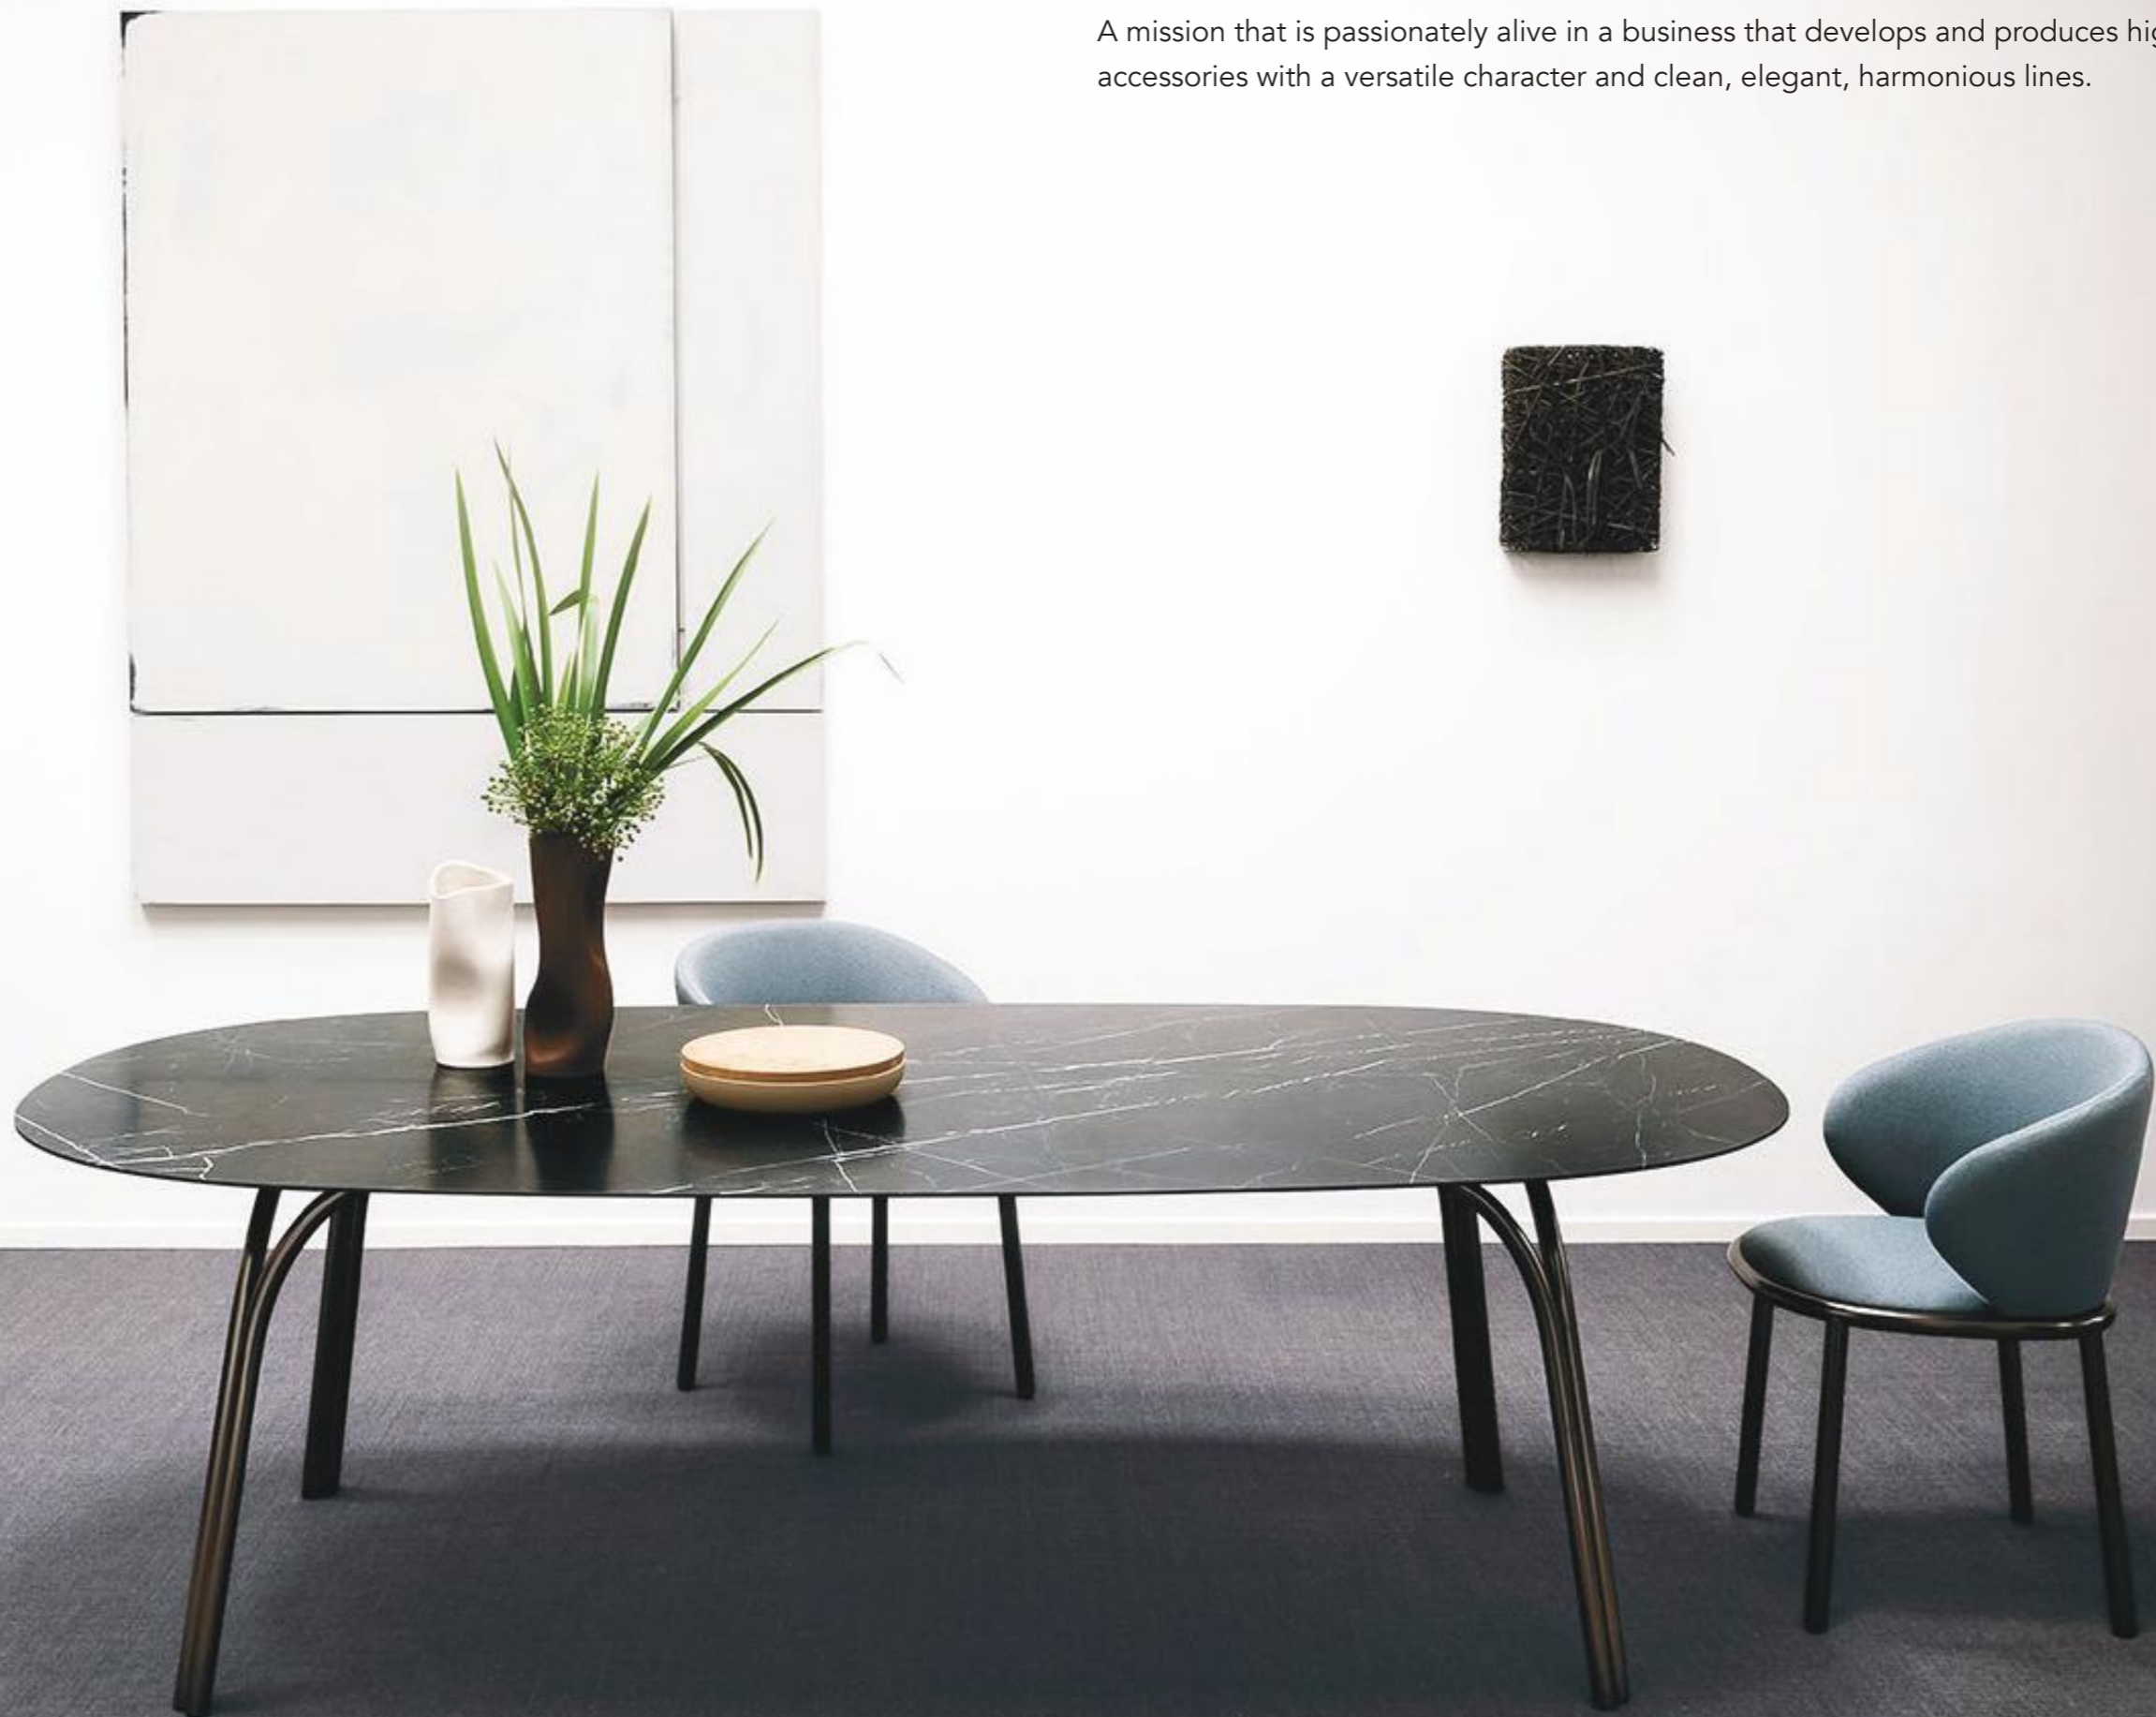

For almost 30 years, Desalto has spread the idea worldwide of an aesthetically sophisticated product, based on constant technical research, with a focus on functionality. It's a story which began in 1990 when four brothers – the heirs of a family metalworking company established in 1963 – envisaged a brand filled with originality.

Desalto's Mission

"Transforming living spaces to get the most out of them, with furniture that speaks of beauty and practicality, design and innovation, high quality and deep feelings."

A mission that is passionately alive in a business that develops and produces high-end furniture and accessories with a versatile character and clean, elegant, harmonious lines.

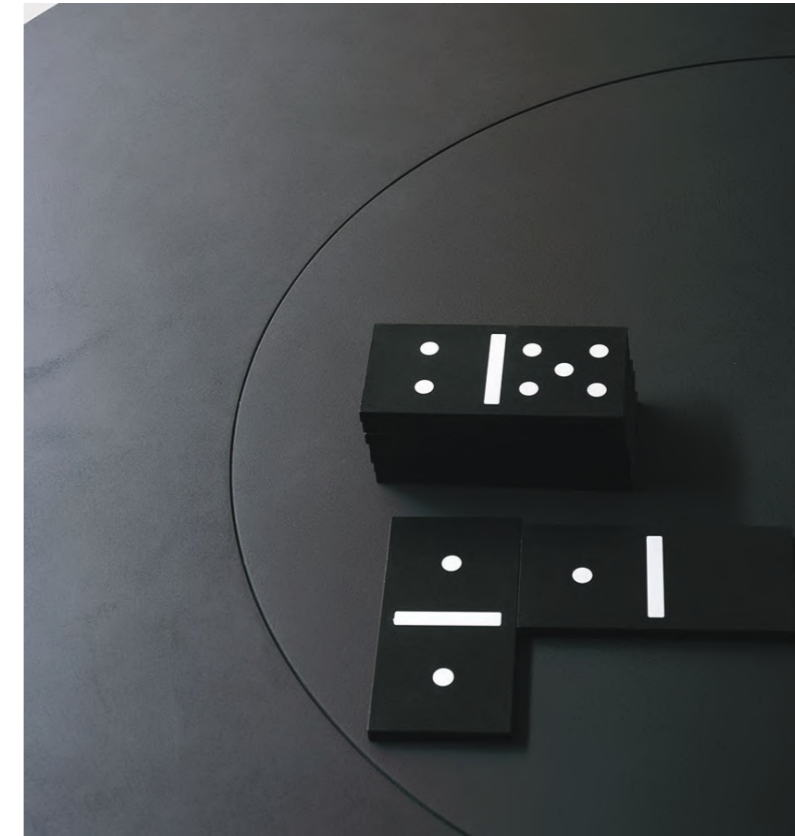

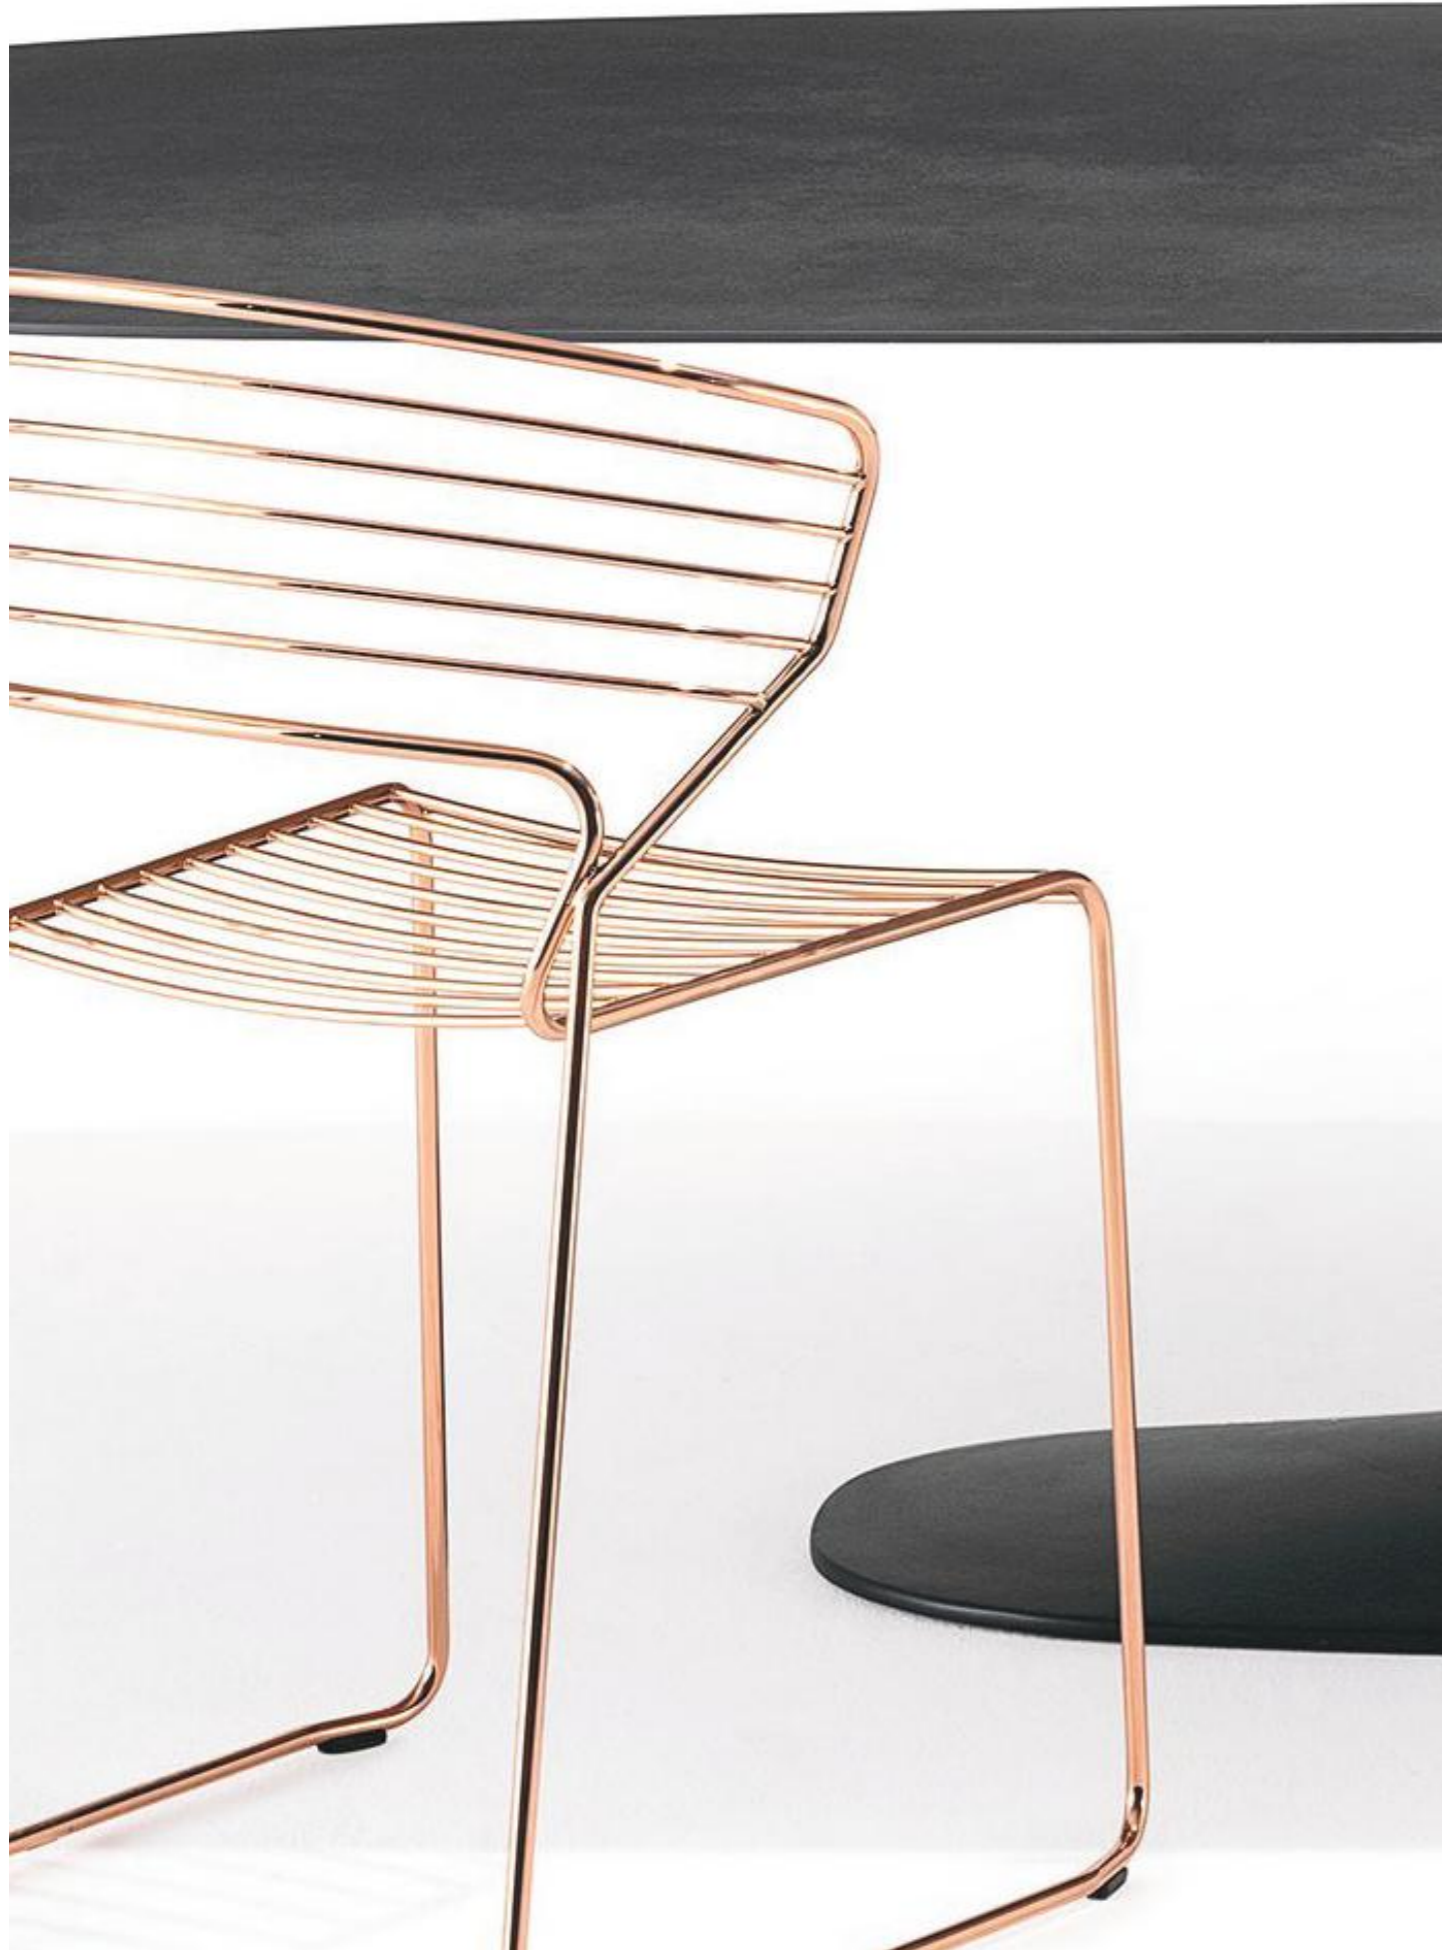

Contemporary Furnishings with a Simple, Sleek Elegance

Desalto produces a wide range of iconic products featuring tables, chairs, stools, bookcases and accessories that are perfect for sleek and simple design schemes, in private or commercial spaces.

With freedom of thought and entrepreneurial focus, Desalto has always fostered fruitful relations with both established contemporary designers and promising up-and-comers, who have contributed to creating a well-considered and comprehensive catalogue of impeccably-crafted pieces.

Excellence in Quality and Production

Quality is at the essence of Italian craftsmanship, and Desalto embodies it. The brand has both an in-house and external production chain which is quality controlled at every stage to ensure long-lasting value and beauty. An accurate control of all stages of the project's realization, from prototype development to engineering, make Desalto today one of the world's leading high-end furniture companies.

Care, Production Quality, Industrial and Design Culture

These are the values of Desalto design, to be experienced in contemporary living spaces.
